

AI agents are coming to the lab.

WITHOUT AI

Time lost. Errors repeated. Problems found late.

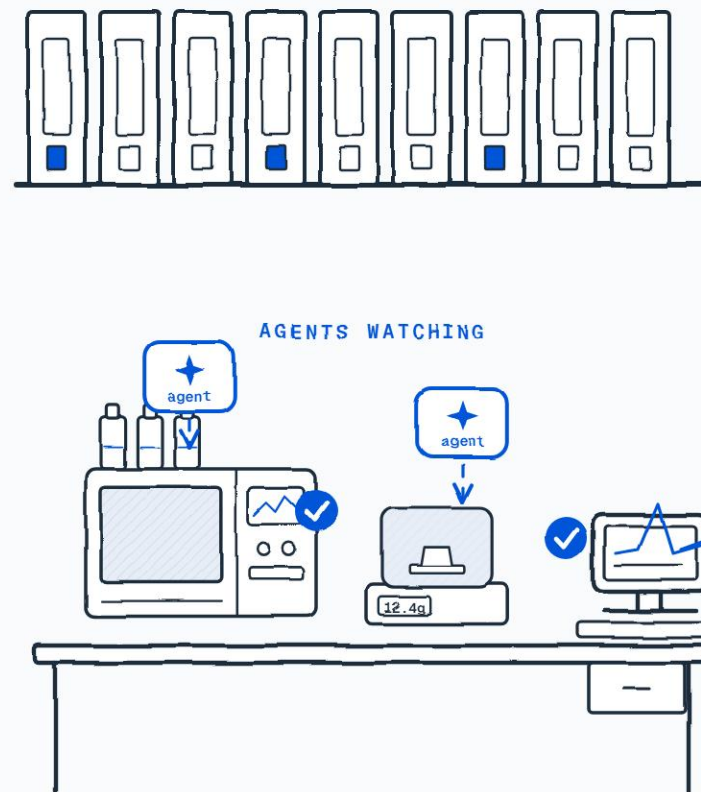

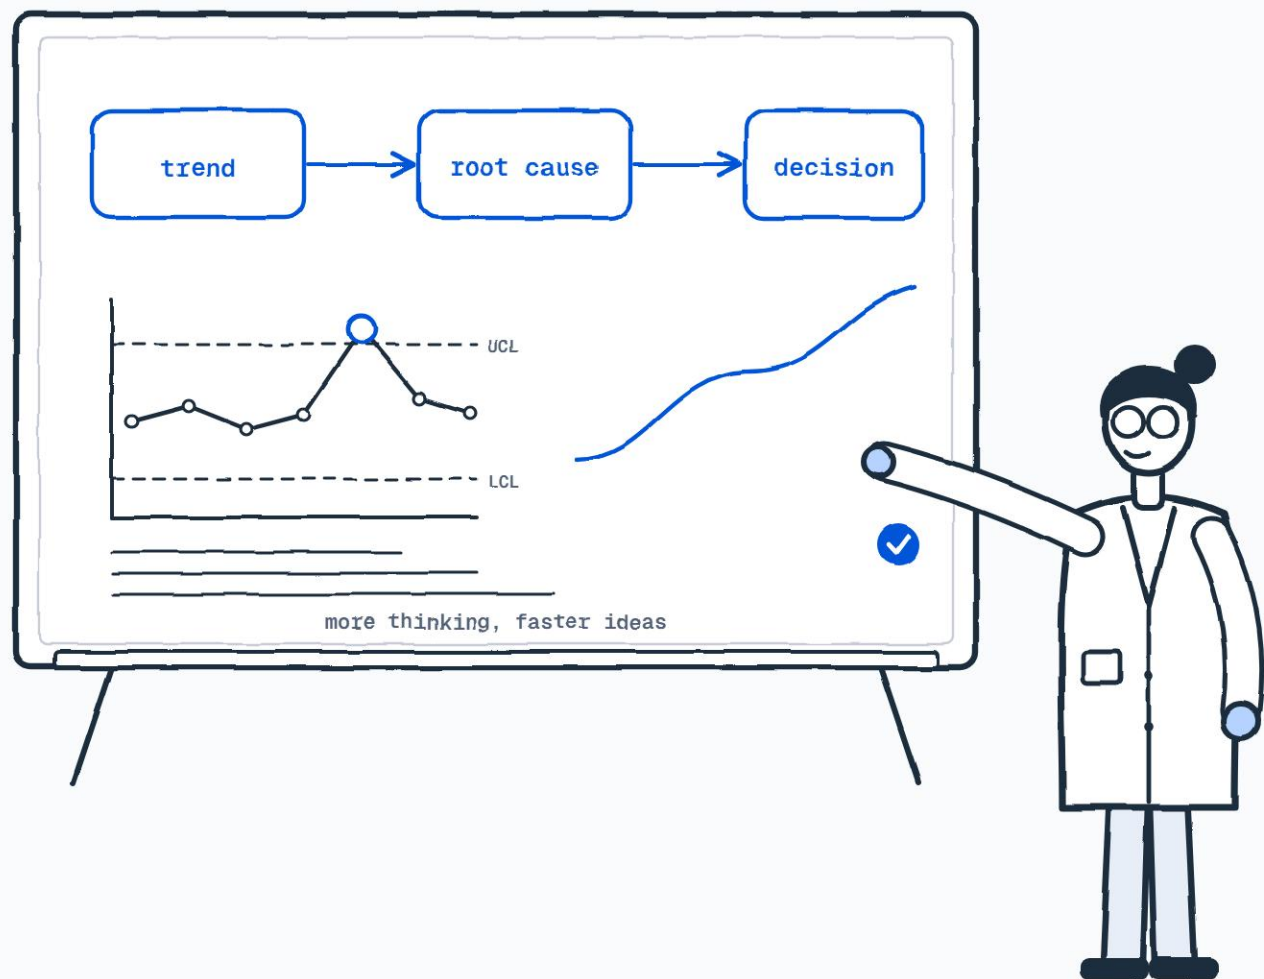

WITH PIXESCI

Time back. Errors caught. Problems found early.

WINNERS AND LOSERS

What happens if you wait?

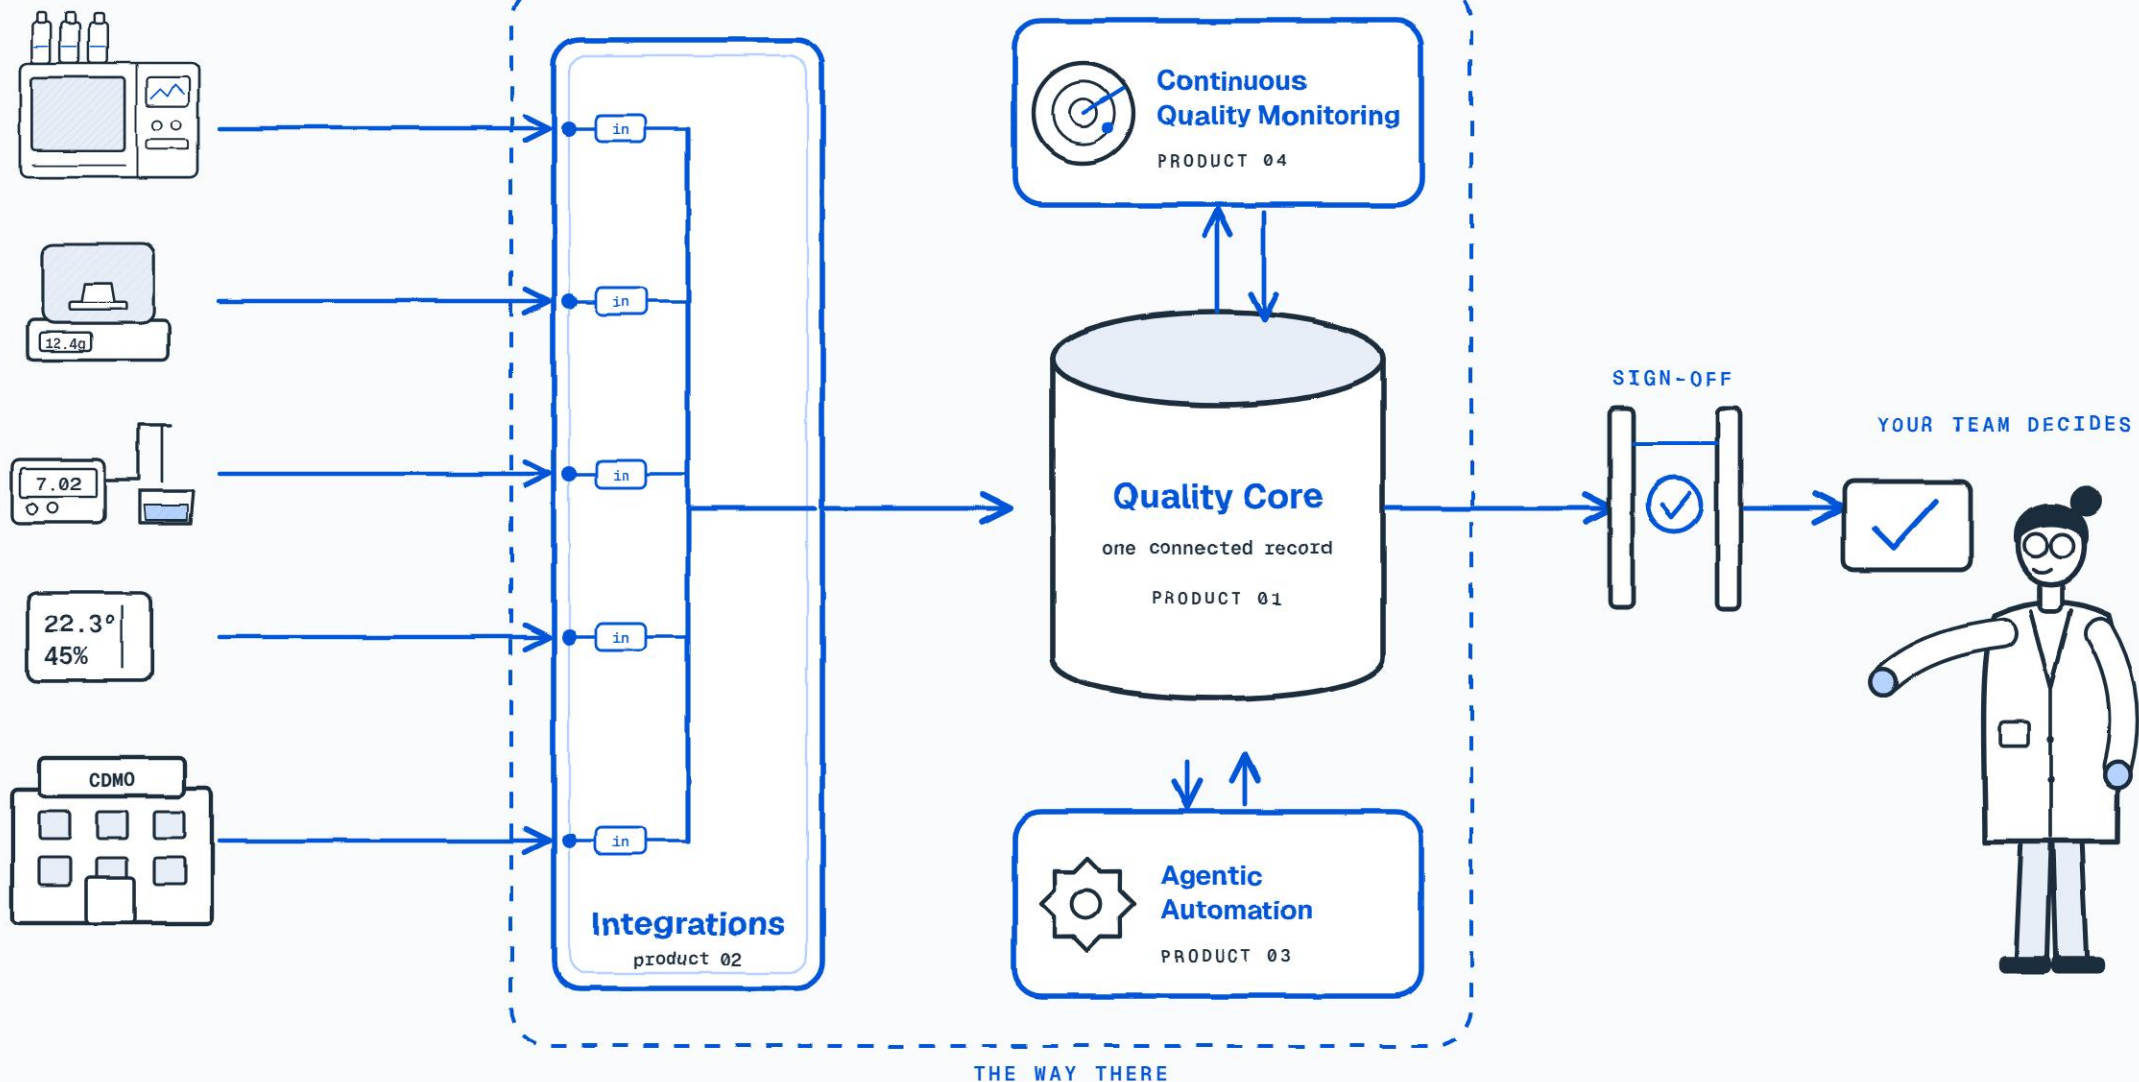

THE PROMISED LAND

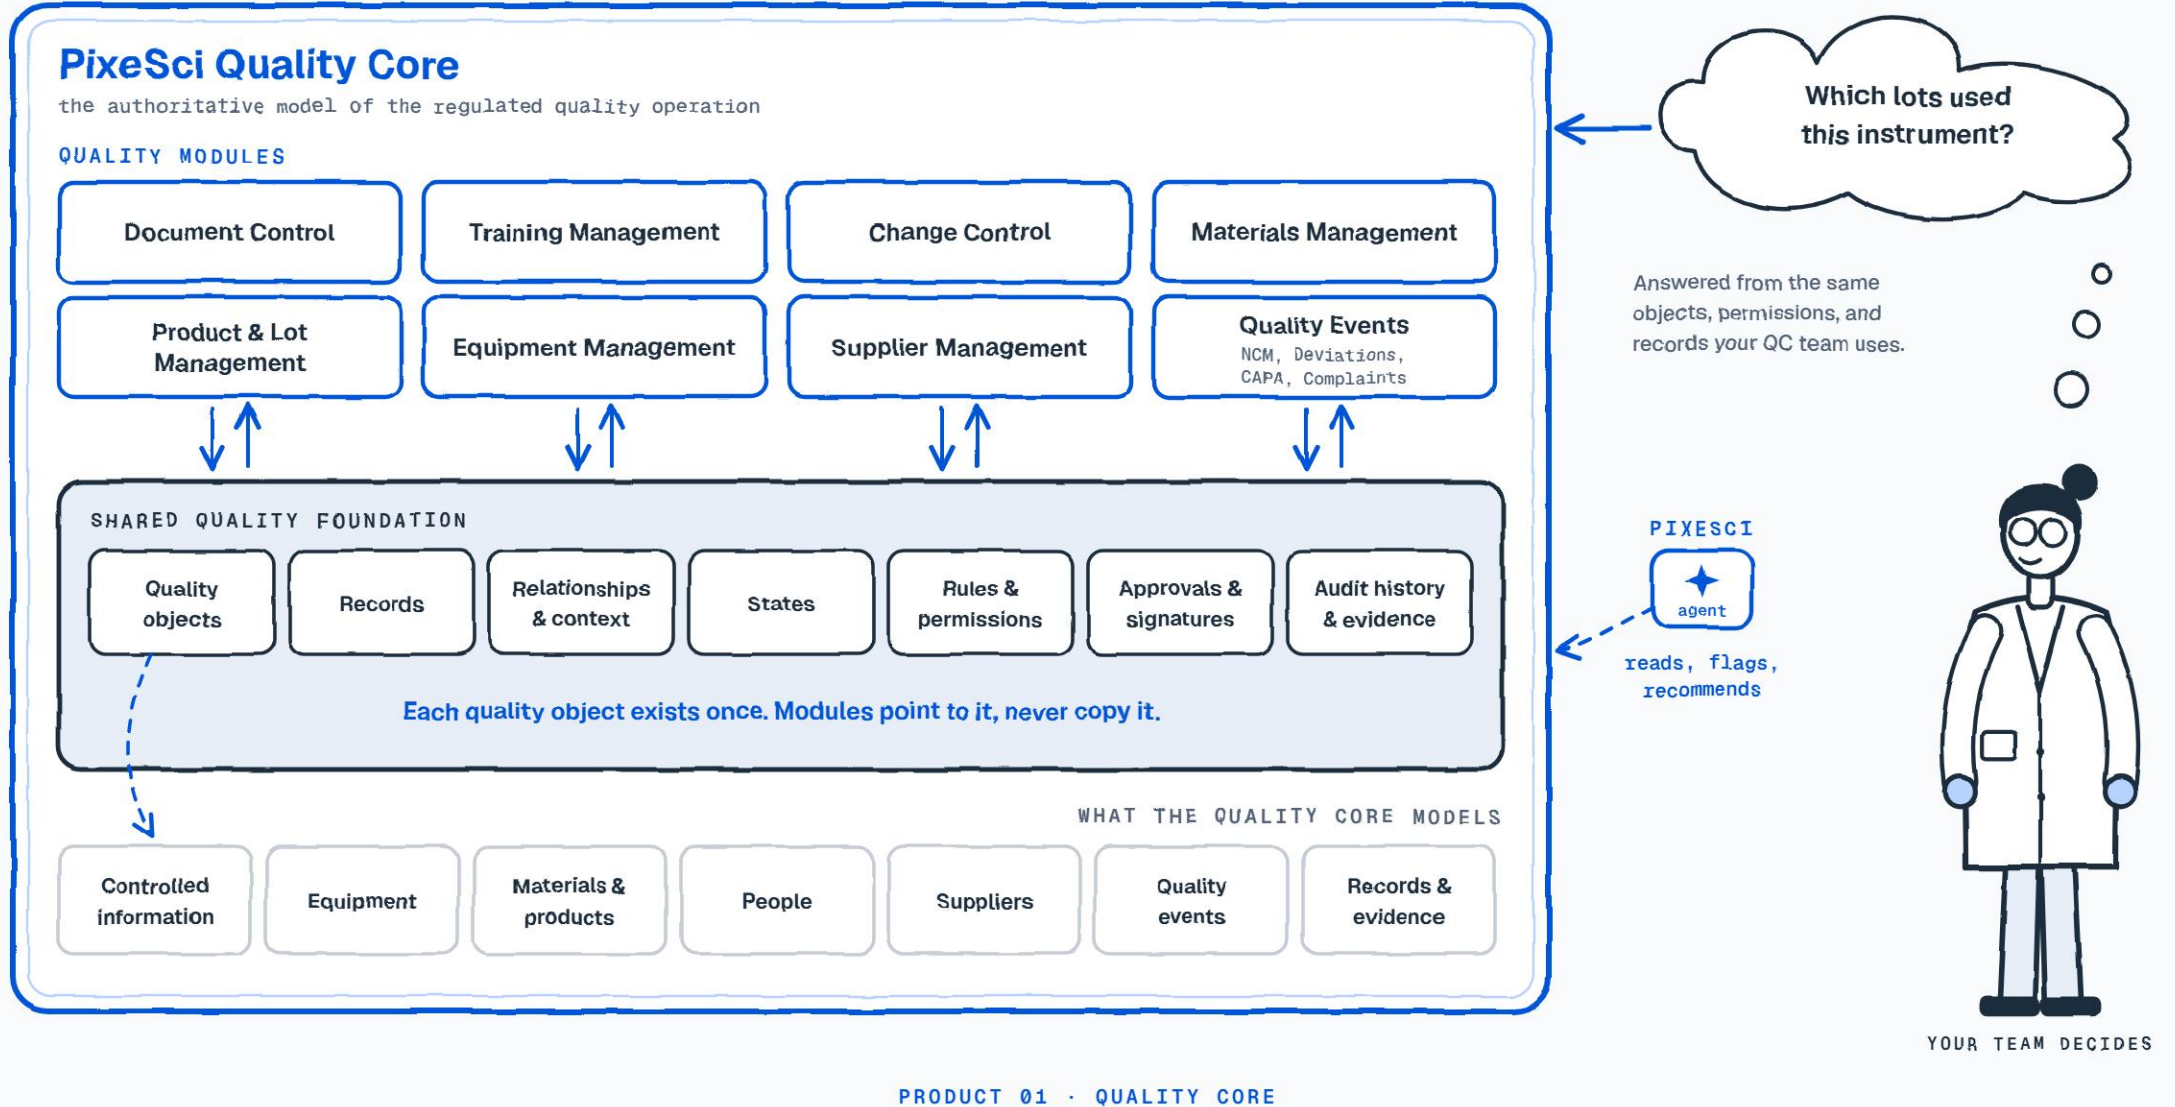

Your team gets to do the thinking.

YOUR INSTRUMENTS AND PARTNERS

PIXESCI NODE, INSTALLED AT YOUR SITE

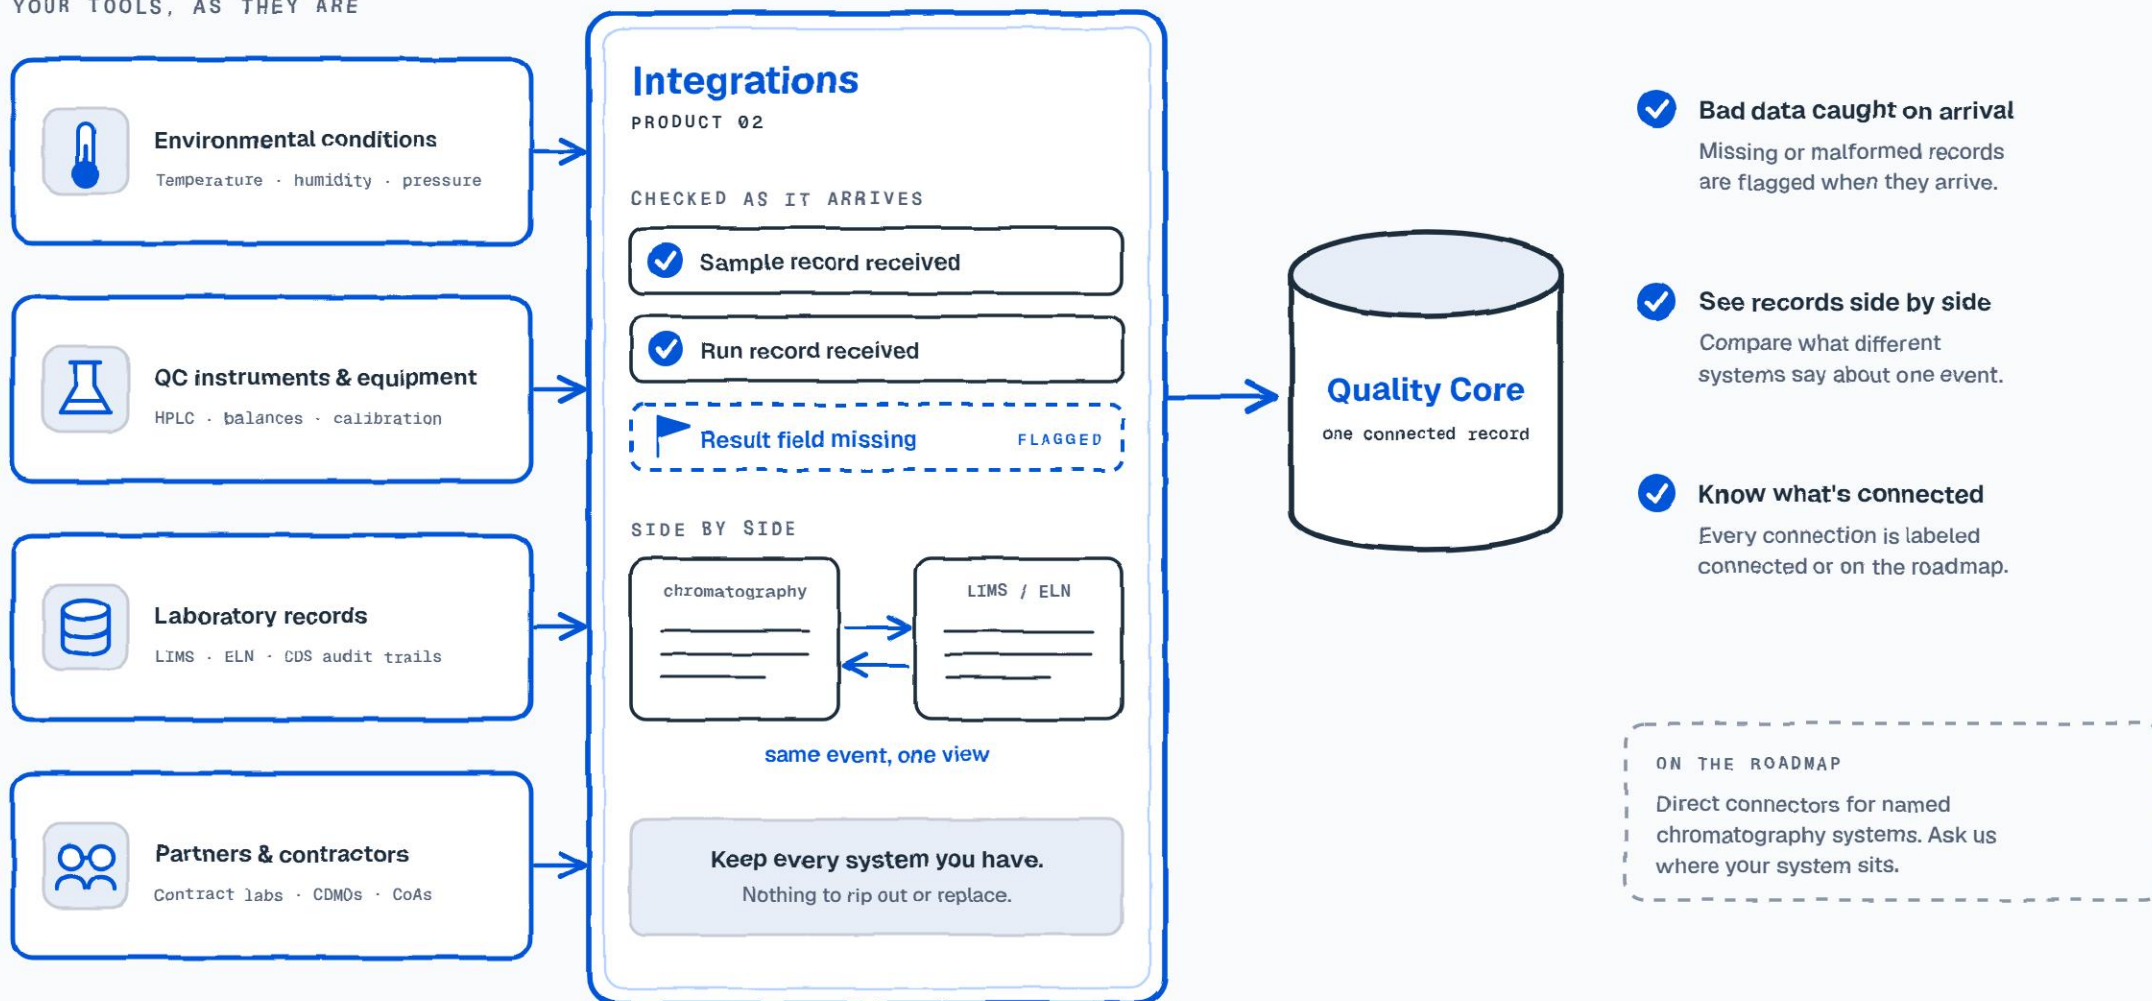

We connect it, run it, and watch it.

One model. Every module works on it.

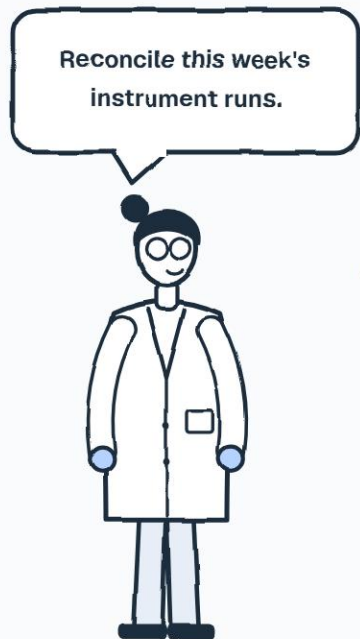

YOUR TOOLS, AS THEY ARE

PRODUCT 02 · INTEGRATIONS

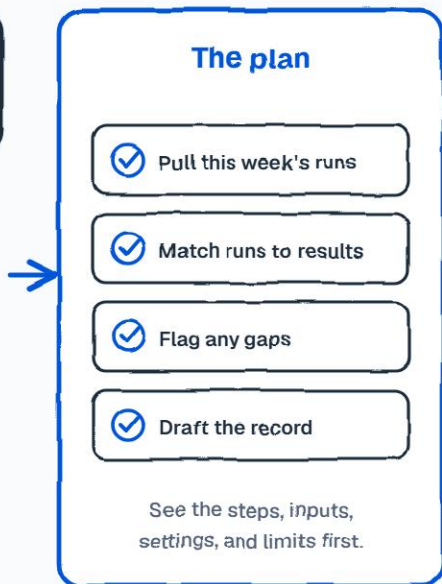

Your tools start working together.

1 ASK

in your own words

2 REVIEW

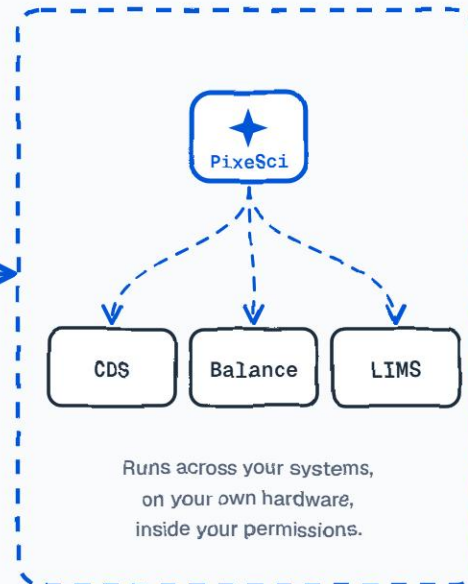

3 APPROVE

Higher-risk actions wait for a person.

4 RUN

5 RECORD

- ✓ Every action
 - ✓ Every file
 - ✓ Every setting
 - ✓ Every approval
- saved with the run.

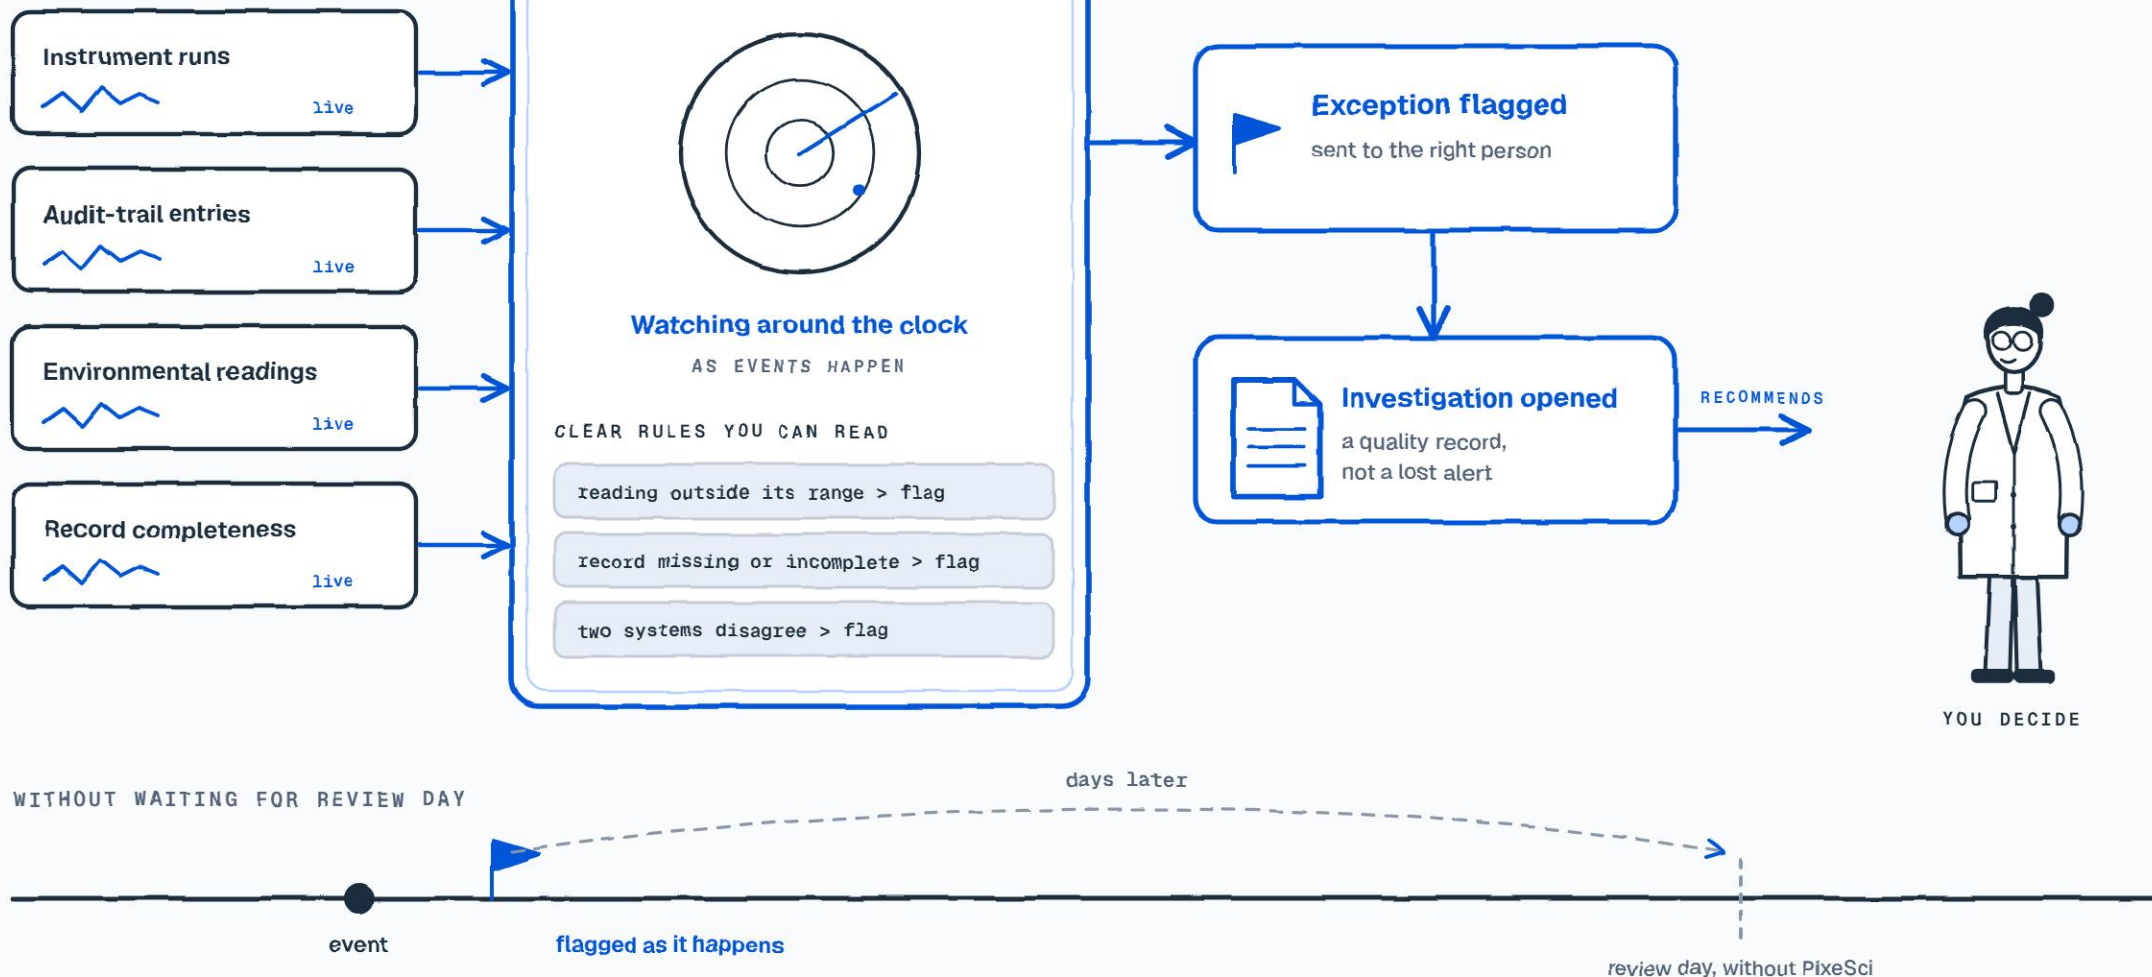

PixeSci can't approve, close, release, invalidate, or sign a record.

It does the routine work. A person decides.

PRODUCT 03 · AGENTIC AUTOMATION

Routine work gets done, and you stay in charge.

WHAT IT WATCHES

PRODUCT 04 · CONTINUOUS QUALITY MONITORING

Know about problems while they're still small.

THE SAME GAPS KEEP SHOWING UP IN FDA FINDINGS

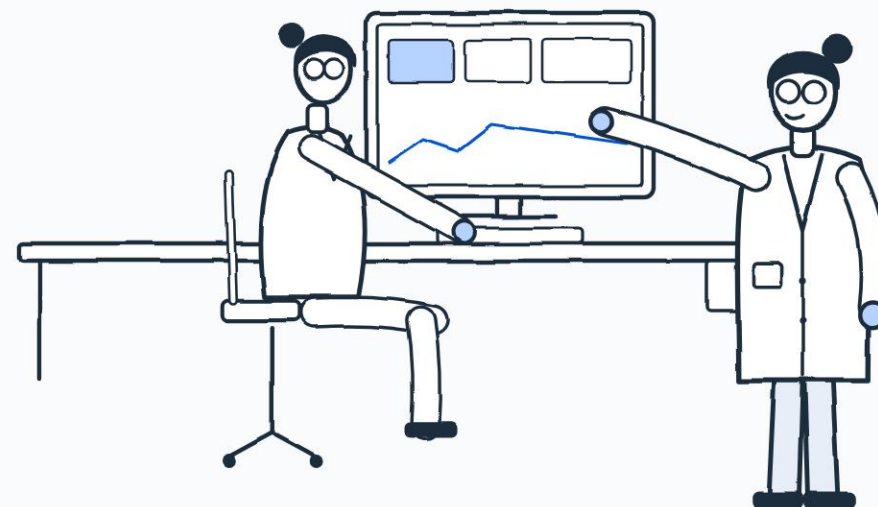

CONNECTED TODAY

- ✓ Lab, Quality, Materials, Manufacturing, Equipment, Documents modules
- ✓ Open-source CDS connector
- ✓ CSV gateway: balance, pH, qPCR

ON THE ROADMAP

Major chromatography data system connectors
